

INSTRUCTIONAL GUIDE: FITNESS AND CONDITIONING-II

Subject Area: Physical Education

Course Number:

Grade Level: 9 – 12

Credit: 0.5

Category: Physical Education

Health Component Emphasized: Cardio-respiratory & Muscular Strength/Endurance

The purpose of this course is to enable students to develop an understanding of fitness concepts and design a personal fitness program while developing an individualized level of health-related activities.

This course will contain but not be limited to the following: safety practices, physiology of the cardiovascular system, anatomy of the muscles, concepts and principles of health-related fitness, correct techniques of executing exercises, use of various types of exercise and fitness equipment, fitness assessments, personal and group fitness exercises/activities, nutrition, consumer issues, benefits of participation, design and implementation of a personal fitness program.

This will be based on combined knowledge acquired in a weight training course

QUARTER 1		
CONTENT STANDARD	OBJECTIVE	Assessments
1st week Cognitive Approximately five – 55 minute periods of time to complete	Lesson/Information to be Covered Orientation Course Syllabus Attendance Procedures Rules and Regulations Locks and Lockers Uniforms Go over rules associated with the course activities.	Pre-Test
2nd Week Cognitive/Perform Approximately five –55 minute periods of time to complete Perform/Cognitive	Identify safety issues Explain methods of monitoring levels of intensity during aerobic activities. Discuss safety issues pertaining to exercises, equipment and safety in general. Review heart rate checks. Use technology to analyze data to evaluate and monitor.	Pre – Testing/Goal Setting for fitness improvement Pre-test on 12 minute walk/run, push-ups crunches or max weight lifts on core lifts.
3rd Week Perform Approximately five –55minute periods of time to complete	Goal setting, using a fitness journal/ selection of activities. Review basic core exercises and application to everyday movements. Use a variety of equipment. Med / stability balls, bands, BOSU, etc. Circuit training. Review of floor exercises. Practical	Calculate individual target heart rate and analyze how to adjust intensity.

FITNESS AND CONDITIONING- II PACING GUIDE GRADES 9-12

	<p>application. Concentrate on correct techniques and body mechanics during practical application exercises. Concentrate on complex motor skills with med balls/ stability balls, etc. to improve performance.</p>	
<p>4th Week Approximately five – 55 minute periods of time to complete</p>	<p>Body Mechanics Warm-Up/Cool/Down Training muscle groups. Review of muscular fitness exercises. Concentrate on correct techniques and body mechanics during practical application. Circuit training weight training workout. Muscular strength/endurance and correlation to training. Choose endurance and/or strength exercises to use in workout. Plyometric circuit to improve complex motor skills. Discuss warm-up/cool down and importance</p>	<p>Circuit training rubric and check sheet</p>
<p>5th week Cognitive/Affective Approximately five – 55minute periods of time to complete</p>	<p>Identify muscles of the body, muscular endurance and strength Training muscle groups. Power Point Presentation on “Muscles of the Body” or muscle video. Re-enforce identification of muscles. Use weight training form and create a five day work out for 3 weeks do using a</p>	<p>Quiz. Discuss which exercises work which muscles.</p>

FITNESS AND CONDITIONING- II PACING GUIDE GRADES 9-12

	spreadsheet. Practical Application.	
<p>6th week Approximately five – 55 minute periods of time to complete. Cognitive</p> <p>Perform</p>	<p>Objective</p> <p>Nutrition and Muscles Training muscle groups. Discussion on nutrition. Power point presentation or video on Fitness and Wellness and or Fitness and Nutrition.</p> <p>Discussion on food and how it relates to exercise. Record food consumption in journal.</p> <p>Circuit training on nutrition or caloric intake/output.</p>	<p>Assessment</p> <p>With a partner, create a food plan to go with a workout. Use the five day work out plan for class activity.</p>
<p>7th week Approximately five – 55 minute periods of time to complete Cognitive</p> <p>Perform</p>	<p>Cardio Training muscle groups. Discuss cardio respiratory system and how it applies to exercise. Circuit train using a cardio- muscular fitness circuit. Pulse check. Use the five day work out plan for class activity. Core with or without equipment. Work with partner.</p>	<p>Complete all round circuit check sheet and rubric</p>
<p>8th week Approximately five –55 minute periods of time to complete</p>	<p>Anatomy Training muscle groups Discuss in detail the anatomy of muscles.</p>	<p>Muscle Anatomy worksheet</p>

FITNESS AND CONDITIONING- II PACING GUIDE GRADES 9-12

	<p>Use the five day work out plan for class activity. Cardio. Core with or without equipment. Work with partner.</p>	
<p>9th week Approximately five –55 minute periods of time to complete Perform Affective</p>	<p>Objective FITT Training muscle groups Go over FITT Principle and how it relates to improvement on muscular strength and endurance.</p>	<p>Assessment Repeat test on 12 minute walk / run, step test, crunches, and push-ups or max-outs.</p>
<p>Connect CCSS ELA CCSS Reading CCSS Writing</p>	<p>Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an objective summary of the</p> <p>Analyze a case in which grasping point of view requires distinguishing what is directly stated in a text from what is really meant (e.g., satire, sarcasm, irony, or understatement).</p> <p>Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.</p> <p>Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.</p>

Personal Fitness
Textbook- Roberta Stokes

intake/output.

Create a food plan to go with a workout. Use the five day work out plan for class activity. Work with a partner.

**Cardio
Training muscle groups.**

7th week
Approximately
five – 49 minute periods
of time to complete

Discuss cardio respiratory system and how it applies to exercise.
Circuit train using a cardio- muscular fitness circuit.
Pulse check.
Use the five day work out plan for class activity.
Core with or without equipment. Work with partner.

Fitness for Life Textbook
Cardio power point found on Angel.
All round circuit found on Angel

**Anatomy
Training muscle groups**

8h week
Approximately
five – 49 minute periods
of time to complete

Discuss in detail the anatomy of muscles. Use the five day work out plan for class activity.
Cardio. Core with or without equipment. Work with partner.

Fitness for Life Textbook
Muscle Anatomy Power Point in Angel

**FITT
Training muscle groups**

9th week
Approximately
five – 49 minute periods
of time to complete

Go over FITT Principle and how it relates to improvement on muscular strength and endurance.
Repeat test on 12 minute

FITT Principles found in HOPE or Per Fit Textbook.
Also on Angel
Health related test found on Angel.

walk / run, step test, crunches, and push-ups or max-outs.

Flexibility in a fitness routine.
Training muscle groups
Stress Management

10th week
 Approximately five – 49 minute periods of time to complete

Stretches and how it relates to a fitness program.
 Detail discussions about warm-up / cool down. Practical application.
 Create a new 5 day workout routine for muscular fitness. This will be a 6 week workout plan.
 Student decides which cardio to use.
 Breathing exercises.
 Discussion on stress management.

Use HOPE Textbook as supplement for Flexibility and stress management. Also so see Power points on each of these topics found on Angel.

Supplements
Training muscle groups
Explore activities used in other cultures

11th week
 Approximately five – 49 minute periods of time to complete

Discussion on supplements, steroids, alcohol and tobacco.
 Discuss activities and explore the role of these activities in other cultures.
 Use the five day work out plan for class activity.
 Cardio. Core with or
