2023 MSCS LEADERSHIP SYMPOSIUM

CALL FOR PROPOSALS

The MSCS Leadership Symposium is a premier professional learning and networking event designed for emerging and experienced school leaders to learn from expert keynote speakers and leaders in education, network with other school leaders across the Mid-South, and spark ideas to transform K-12 learning environments.

Learning, Leading, and Trending Up!
June 5-9, 2023 | Memphis, TN

Proposal submissions should urge and encourage leaders to think critically and creatively to:

- Review their current practices and set goals that will increase student growth and achievement
- Foster new collaborations that will build strong academic and social culture and climates
- Manage schools that will function in operational excellence and fiscal prudence

How Do I Submit a Proposal?

Review the conference strands below. Proposals should be submitted through the link below by the deadline for consideration.

Contact symposium@scsk12.org for inquiries and support.

Submission Deadline: March 20, 2023

2023 MSCS LEADERSHIP SYMPOSIUM

CALL FOR PROPOSALS

Conference Strands

Culture and Climate

How can leaders create systems and structures that foster a positive culture and climate for staff and students? This strand will offer attendees research-based practice strategies that are easily replicated and focus on social aspects of a school that will impact student experiences, attitudes, behaviors, and performance.

- Social Emotional Learning
- Equity & Diversity
- Academic Operations and School Support

Instructional Leadership

How can instructional leaders support the development of teachers so that instruction can improve student learning and achievement? This strand will offer research-based practical strategies that will address how to improve instruction by focusing on student learning and achievement, as well as build teacher capacity through differentiated support. Additionally, this strand will offer solutions that promote collaboration which leads to sustainability and agility as well as eliminate barriers that hinder effective academic operations and academic achievement.

- Academics
- Observation & Feedback
- Professional Learning Communities
- Data-Driven Instruction
- Leveraging Leadership
- Technology & Classroom Innovation

Submission Deadline: March 20, 2023
