PART V: SCOPE OF SERVICES (DETAILS)

1.0 THE SERVICES

The district is seeking proposals for a standards-based formative assessment system. The vendor is required to provide an assessment system that can serve elementary, middle, and high schools.

The standards-based formative assessment system will inform instruction, guide professional development, and ultimately boost student achievement. Data provided by periodic district-wide and school-level formative assessments will help school administrators, coaches, and teachers identify strengths and areas needing improvement at the student and class level. Such data will facilitate teachers' efforts to differentiate instruction across students and to identify areas requiring re-teaching at the class level. Data provided by the standards-based formative assessment system will assist in professional development planning by identifying strengths and weaknesses at the teacher, school, and district level.

The standards-based assessment **must** have the following **minimum** features:

- The vendor **must** be able to assess English Language Arts, Math, and science in grades 3-8 and the following high school courses that have state End of Course tests: 9th grade English, 10th grade English, Algebra I, Algebra II, Geometry, Biology, and U.S History.
- Must have sufficient evidence of reliability and validity.
- The ability to test online
- The ability to test on paper in grades 3-5 and easily score paper-based assessments in grades 3-5
- Assessment items must be aligned with Tennessee Curriculum standards and match the rigor of Tennessee's TCAP Achievement and End of Course test items.
- Item types other than typical multiple-choice questions (e.g., multi-select items, two-part items)
- In addition to benchmark testing that will occur three times per year, a sufficiently large item bank must be available for school-level leaders and teachers to create additional standards-based assessments.
- A website through which school-level and district level personnel can gain access to student assessment results. The website must be password protected to guard the confidentiality of student data.
- The vendor's server must have the capacity to support large scale online testing.
- At a minimum, the assessment must have the capacity to serve Memphis Shelby County Schools' student population of approximately 65,000 grades 3-12 non-charter school students.
- The system must be able to pull student data from the district's PowerSchool student information system or provide the capacity to upload data extracts from our student information system.
- The system must make downloadable raw data files of assessment results available to district staff in a format that is easily imported to Excel or statistical software (e.g., already in Excel or in a csv file).
- The system must have a reliable method for backing up data to avoid loss of student data.

- Professional development must be provided at the district and school level.
- At a minimum, during the first year, four hours of in-person professional development should be provided for at least two representatives from each school (302 representatives from 151 schools). An additional four hours of professional development should also be provided to the 302 school representatives for a total of eight hours during the first year, and these additional four hours may be provided in person or virtually. In addition, at least four hours of live virtual professional development should be provided the first year to as many as 100 central office representatives. We ask that any in-person sessions for schools not include more than 35 participants.

The following standards-based assessment feature is not a minimum requirement but is of high interest to the district.

- Vendor-created assessments that would be given three times per year and would match the district's curriculum pacing by only including standards that have been covered at that point in the school year. These vendor-made customized assessments would be created for grades 3-8 ELA, math, and science, and the seven End of Course tests. A cost proposal with and without vendor creation of customized assessments should be included in the vendor's RFP response.

Additional standards-based assessment features that are **not minimum requirements but are of interest to the district include the following:**

- Ability to test social studies in grades 6-8
- Ability to assess writing standards including writing prompts and a method for scoring student essays.
- Ability to provide a text-to-speech accommodation with online testing.
- Lockdown browser for online testing
- Good predictor of TCAP Achievement test and End of Course test results

The following sections should be included in your response:

Experience: Indicate how long your company has been in existence and how long your company has been in the business of providing assessments and assessment items for K-12 schools. Describe your experience with providing interim/formative assessment solutions for K-12 districts. Any experience with large urban districts or other large K-12 organizations and the duration of that experience should be noted.

Reliability and Validity: Provide evidence of the reliability and validity of the items in your item bank and any assessments that are part of the proposal. Provide quantitative reliability and validity results if available.

Evidence of the ability to predict state testing results: Please provide any available quantitative evidence that your pre-made assessments or assessments created with your item bank can predict state assessment results. If you have correlations with Tennessee TCAP assessment results, provide those, but if those are not available provide correlations with other state assessments. If correlations with state assessments are not available, provide any available correlations with other valid and reliable assessments.

Item Bank Description: This section should clearly indicate the number of Tennessee curriculum aligned items that are available for each grade and subject combination. For example, the item bank being offered has X Tennessee aligned third grade ELA items, X third grade math items, X fourth grade ELA items, X Algebra I items, X English I items, etc. A table displaying these counts by grade and subject area in grades 3-8 and End of Course tests in high school would be helpful.

Please indicate in this section if writing assessment is available. Is writing assessed through writing prompts and student essay responses or writing-related multiple choice or other item types? If writing prompts are part of the assessment, how are essay responses to writing prompts scored?

This section should also indicate how you ensure that test items are aligned with Tennessee curriculum standards. Is there a sufficient range of item difficulty within the item bank? Does the item bank provide information on the difficulty of each item, and can this information be viewed by those using the item bank? Are item types outside of traditional multiple-choice items available? In addition, can the district create additional items to add to the item bank?

Do school level teachers and school level administrators have access to all items in the item bank? Is there a way to remove school level access and secure items that may be used for district-wide benchmark assessments?

If the vendor is able to provide examples of items, that would be helpful.

Vendor Creation of District Benchmark Assessments. The district is interested in vendor-created assessments for each required subject and grade level in grades 3-8 and each End of Course test in high school that would match the district's curriculum pacing. Three versions of each test would be needed to administer a fall, winter, and spring version of the test. For example, a third grade ELA test would be created for fall, winter, and spring, an Algebra I test would be created for fall, winter, and spring, etc. The vendor should describe their methodology for creating such tests including how they would make the tests match the pacing of the district's curriculum so that only standards that have been covered so far are included. Prior experience creating such tests should be described, and the time that would be needed to develop these tests should be indicated. Is having the fall customized assessments ready by six weeks into the 2025-2026 school year feasible? How many districts have you created customized formative assessments for previously? A cost proposal with and without vendor creation of customized assessments should be included in the vendor's RFP response.

Test Administration Description from a Teacher and Student Perspective: For example, how are online tests connected to teachers and made available to students so that they can test? How do students log in to the platform to take the test, and what platform is used? Is a text-to-speech function available? Are test administrators required to do anything during online testing such as starting or ending tests or test sessions? Is paper testing possible in grades 3-5? Please describe how paper versions of the tests can be printed for grades 3-5 and how paper tests can be scored. How do teachers and school administrators access reports showing test results? Can teachers view test items after district-wide tests have been given to inform instruction? A sandbox or practice site that review committee members can explore would be ideal.

Description of Available Reports: What reports are available on the website after testing? If access to reports varies depending on role, which reports are available to teachers, school level administrators, and district-level administrators? Screenshots of the available reports would be

helpful. Also, is there a report specifically designed to be shared with parents? A sandbox or practice site that review committee members can explore would be ideal.

Student Level Download of Test Results in an Excel or csv file and API availability:

Describe any student level file download of assessment results that will be available at the district level. For example, will a single download be available in Excel or csv format that will include all results for each student from a district-wide assessment or will a separate download be required for each test (e.g., third grade ELA, third grade math, etc.)? What fields are included in the download? For example, are student names and id number included? What scores are included: number correct, percent correct, overall performance levels (e.g., Below, Approaching, Met, Exceeded), or percentiles? Is there a student level file download that will show results by standard or by item in addition to overall scores?

If you can share a data file layout document, that would be ideal.

Does your system have an API or other data collection methods that would allow transfer of assessment results to local applications? Please provide the following if available:

- Types of APIs available and the data they provide.
- Any other methods of data integration your platform supports, such as file uploads, webhooks, or direct database connections.
- The tools and technologies used to facilitate these data collection methods.
- Supporting documentation that outlines these capabilities, including API documentation, data schemas, integration guides, and any relevant protocols or standards you follow.
- How you ensure the reliability, accuracy, and security of the data collected through these methods.

Description of Professional Development and Implementation Support: Describe how the vendor would meet the minimum requirements outlined in the RFP and any additional professional development that the vendor would recommend. At a minimum, professional development should provide training on navigating the website, administering tests, and interpreting and using reports.

Indicate how the vendor will support the implementation of their assessment system. For example, how does the vendor typically support the roll out of a new assessment system in a district? Will a project manager be assigned to assist the district with implementation of the assessment system?

Description of Population of the Website with Students, Teachers, and Classes: Describe the options for populating the vendor's website with student, teacher, and class information from the district's student information system, which is PowerSchool. Will the vendor's website be updated nightly using PowerSchool information?

Technology Support: Describe what technology-related support will be available. For example, will there be a help desk that can be called, and what hours are they available? Will there be someone assigned to our district to assist the district's IT department as needed?

*****The respondent should supply access to a demo account/sandbox to allow MSCS the ability to test out the solution offering.**

PART VI: APPENDICES

APPENDIX A - SPECIAL TERMS AND CONDITIONS FOR RFP'S

These Terms and Conditions shall apply unless otherwise noted in General Terms and Conditions attached to individual bid request. It shall be the Vendor's sole responsibility to insure they are compliant with all applicable federal, state, and city laws, rules, ordinances, statutes, etc., that may impact this contract. SCBE shall bear no responsibility for monitoring the Vendor's compliance with said legal requirements. If the Vendor fails to maintain legal compliance, SCBE may find said Vendor in default.

1. REQUEST FOR PROPOSALS (RFP)

- a. DIRECTIONS: SCBE invites all interested and qualified vendors to submit proposals to this RFP in accordance with directions specified in the attached General Terms and Conditions and these Special Terms and Conditions.
- b. DEFINITIONS: For the purpose and clarity of this document only, "SCBE" will mean The Memphis-Shelby County Schools. Also, for the purpose and clarity of this document, "Vendor" will mean any reliable and interested broker, vendor, supplier, vendor, and/or manufacturer that want to respond to this RFP.

2. GENERAL REQUIREMENTS

- a. AUTHORIZED DEALERS: Only authorized dealers may submit a proposal on requested equipment. At the discretion of SCBE, a certificate, executed by the manufacturer, may be requested stating that the Vendor is an authorized agent of the manufacturer and is duly authorized to service and maintain the equipment.
- b. INSPECTIONS: SCBE reserves the right to have inspectors on the premises of the manufacturer during the process of manufacture of any products being furnished under this RFP for as long as may be considered necessary by SCBE. All expenses of the inspectors shall be borne by SCBE. The presence of the inspectors at the site of manufacture of the products shall not relieve the Awarded Vendor of responsibility for faulty workmanship of materials that may be discovered at any time after delivery and prior to final acceptance in accordance with the specifications. In case of factory inspection of items being manufactured for SCBE, every facility shall be afforded inspectors by the manufacturers for the pursuance of their work.
- c. TYPES OF PURCHASES: These specifications are intended to cover the various types of purchases of equipment, materials, supplies, or services as shown to any or to each of the various public and charter schools, offices, or to any designated warehouse or warehouses in Shelby County.
- d. SINGLE PRICE: Unless otherwise specified in the General Terms and Conditions attached to this RFP, the Vendor will not be allowed to offer more than one price on each item even though the vendor may feel that it has two or more types or styles that will meet specifications. Vendor must determine which to offer. If said Vendor should submit more than one price on any item, all prices for that item will be rejected.
- e. AGGREGATE BIDS: Where provision is made on the proposal form for bidding items on an individual, group or aggregate basis, the award will be made on whichever basis is in the best interest of SCBE. When an aggregate bid is requested, the unit prices for each item shall be identified in the response. The unit prices in an aggregate bid should be

consistent with the total quoted price for an aggregate bid. No bid or a combination of items will be permitted except as noted in the General Terms and Conditions.

- f. **MINIMUM REQUIREMENTS:** Whenever mention is made of any article, material, or workmanship to be in accordance with laws, ordinances, building codes, underwriter's code, A.S.M.E. regulations, or similar expressions, the requirements of these laws, ordinances, etc., shall be construed as to the minimum requirements of these specifications. In case of any apparent conflict between the specifications and such laws, ordinances, etc., the Awarded Vendor shall call said conflict to the attention of SCBE Director of Purchasing & Supply Services for a decision before proceeding with any work.
- g. **USE OF BRAND NAMES:** Brand names and model numbers are offered as a reference for Vendors as to the style, size, weight, and other characteristics of the item(s) in the specifications. The use of such brand names should not be interpreted to be the exclusive brand desired unless so stated. The determination of the acceptability and/or the criteria for acceptability of an alternate is solely the responsibility of SCBE.
- h. **PRODUCT OFFERED BY THE VENDOR:** The product offered by the Vendor shall be new, not used, and the latest version of the product. Should a product be discontinued and/or upgraded during the course of the contract, the Vendor shall offer to SCBE a new alternate product that meets and/or exceeds the established specifications, under the same terms, conditions, and prices as the originally offered item.
- i. **COMPLIANCE WITH SPECIFICATIONS:** The Vendor shall abide by and comply with the true intent of the specifications and not take advantage of any unintentional error or omission but shall fully complete every part as the true intent and meaning of the drawings and specifications, as decided by the Procurement Director. Where the requirements of the specifications call for higher grade and are not in conflict with the laws, ordinances, etc., the specifications shall govern. Where the requirements of the laws, ordinances, etc., are mandatory, they shall govern. The successful Vendor, after award and before manufacture and/or shipment, may be required to submit working drawings or detailed descriptive data identified as acceptable to SCBE, which would provide sufficient data to enable SCBE to judge the Vendor's compliance with the specifications.
- j. **DEVIATIONS TO SPECIFICATIONS:** Any deviation from the specifications must be noted in detail by the Vendor, in writing, as an attachment to the response. The absence of a written list of specification deviations attached to the response will hold the Vendor strictly accountable to SCBE to the specification as written. Any deviation by the Awarded Vendor from the specifications, without prior documented approval, will be grounds for rejection of the goods and/or equipment when delivered.
- k. **Piggyback Clause:** Shelby County Board of Education reserves the right to extend the terms, conditions, and prices of this contract to other Institutions (such as State, Local and/or Public Agencies) who express an interest in participating in any contract that results from this RFP. Each of the piggyback institutions will issue their own purchasing documents for purchasing of the goods. Proposer agrees that the Shelby County Board of Education shall bear no responsibility or liability for any agreements between Proposer and the other Institution(s) who desire to exercise this option.

Each participating jurisdiction or agency shall enter into its own contract with the Awarded Respondent(s) and this contract shall be binding only upon the principals

signing such an agreement. Invoices shall be submitted in duplicate "directly" to the ordering jurisdiction for each unit purchased. Disputes over the execution of any contract shall be the responsibility of the participating jurisdiction or agency that entered into that contract. - b. **UNITS OF MEASURE:** Wherever SCBE indicates the unit of measure required and the Vendor's price is based on a different unit of measure, it shall be at the sole discretion of SCBE to determine whether the Vendor's price will be recalculated. SCBE will not accept any proposals with Vendor escalator clauses, unbalanced figures, or irregular features.

LOCAL PREFERENCE PURCHASING

I. PURPOSE

To give a local preference to businesses located in Shelby County, Tennessee for the purchase of supplies, materials, equipment, and services.

II. SCOPE

This policy applies to District level contracts with a total dollar purchase greater than \$25,000.

III. DEFINITION

- A. Local Preference Purchasing means giving preference to businesses located within Shelby County, Tennessee in the purchase of personal property, materials, and contractual services and in constructing improvements to real property or to existing structures.
- B. Local Business means a vendor or contractor who holds a valid license to do business in Shelby County, Tennessee; has a street address within the limits of said locality for a continuous period of at least six (6) months prior to bid or proposal opening date; and has proof that Shelby County Personal Taxes are current (applies to local businesses who have been doing business in Shelby County, Tennessee for a year or more).

IV. POLICY STATEMENT

The Shelby County Board of Education recognizes that a significant amount of funds are spent on purchasing personal property, materials, and contractual services and in constructing improvements to real property or to existing structures. The Board also recognizes that dollars used in making purchases are derived largely from revenues generated from businesses located within Shelby County, Tennessee. The Board believes that funds generated in the community should be placed back into the local economy. Therefore, it is the policy of Shelby County Board of Education to provide a preference to

local businesses in procurement transactions whenever the application of such a preference is reasonable in light of the dollar-value of proposals received in relation to such expenditures.

In the bidding of, or letting for procurement of supplies, materials, equipment and services, with a total price greater than \$25,000, if the lowest responsive bidder is a regional or nonlocal business, then all bids received from Local Businesses are decreased by five (5) percent. The original bid is not changed; the five (5) percent is calculated only for the purpose of determining the Local Preference. The Local Preference cost differential is not to exceed one hundred thousand dollars (\$100,000.00).

In the case of request for proposals, letters of interest, best evaluated bids, qualifications or other solicitations and competitive negotiation and selection in which objective factors are used to evaluate the responses, Local Businesses will be assigned five (5) percent of the total evaluation points up to a maximum of five (5) points.

In the event of a tie between a local and non-local business, favor shall be given to the Local Business and a coin toss method will be used to break ties between two (2) or more local businesses meeting said specifications.

Exceptions

This preference shall not apply to purchases or contracts that are funded in whole or in part by a governmental entity if the laws, regulations or policies governing such funding prohibit application of the Local Preference; when exigent emergency conditions or noncompetitive situations exist; and when a particular purchase, contract, or category of contracts for which MSCS is the awarding authority is waived upon written justification and recommendation of the Board.

Restrictions

The Local Preference shall apply to District level purchases only. The preference shall apply to new contracts for supplies, materials, equipment, and services first solicited after January 29, 2013.

V. RESPONSIBILITY

- A. The "users" of services are responsible for furnishing an objective evaluation of their needs and for identifying the specifications of the services to be delivered.
- B. The Chief Financial Officer is responsible for developing final specifications and obtaining all bids, requests for proposals, and contracted service agreements.
- C. The Chief Financial Officer is responsible for ensuring that all services have been properly approved and all procedures followed before signing contractual agreements.
- D. The Superintendent is responsible for ensuring compliance with this policy.
