

Suggested 3rd – 5th Grade Instructional Framework: Days 1-5 (DRAFT) (120 Minutes)

The 3rd-5th Grade Instructional Framework is designed to provide guidance around the 120-minute literacy block. While the time allocations shown align to the Wonders curriculum expectations, diverse building and grade-level structures, as well as student needs and instructional goals, may influence scheduling within the ELA block. Optional instructional opportunities are provided which focus on reinforcing, revisiting, or extending the instruction. Since these activities will often benefit all learners, teachers include the optional opportunities necessary to support their students' understanding during whole group instruction. However, as teachers plan for implementation some optional activities may be identified as best suited for small groups.
