

Shelby County Schools

presents

ENERGY CONSERVATION INDUSTRY DAY

March 27 - 28, 2019

at the

Barnes Building, Rm B-1

160 S. Hollywood St. Memphis, TN 38112

SCS IS HOSTING INFORMATION REVIEWS FOR THE ENERGY CONSERVATION INDUSTRY

- The purpose of these meetings is to obtain information from the energy conservation community regarding best practices, strategies, techniques and technologies that may help SCS reduce energy costs and carbon footprint.
- These meetings are for market research information only, no award will be offered.
- SCS is located in Memphis, Tennessee and is one of America's top 25 largest school districts.
- SCS is interested in obtaining information from vendors who have experience in energy conservation for K-12 facilities, commercial buildings and similar environments.
- Meeting agendas will follow, vendors are asked to limit participants to 3 team members.
- Vendors are encouraged to check out the Shelby County Schools website at scsk12.org.
- Each participant will be assigned a 55 minute time slot.

Please email your interest in taking part in the event to Helen White at whiteha@scsk12.org. Interested vendors will receive a scheduled date and time for you to share with the team your vision and capabilities.
